MAYUR WAGH

MERN Full Stack Developer | React · Next.js · Node.js · Express · MongoDB
Nashik, Maharashtra | +91 8208663529 | mswagh98@gmail.com | linkedin.com/in/mayur--wagh

PROFESSIONAL SUMMARY

MERN Full Stack Developer with 3+ years of experience building production-grade web applications end-to-end across React.js, Next.js, Node.js, Express.js and MongoDB. Proven track record of shipping AI-powered platforms, designing scalable REST APIs and optimizing page-load and API performance. Strong in authentication, system design fundamentals and Agile delivery; comfortable owning features from schema design through deployment.

CORE SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js (SSR/SSG), Redux Toolkit, Tailwind CSS, MUI, Responsive Design, Component Architecture

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Role-Based Access Control (RBAC), Authentication & Authorization

Databases: MongoDB, Mongoose, Schema Design, Indexing, Query Optimization, Aggregation Pipelines

Cloud & DevOps: AWS (EC2, S3), Firebase, Vercel, Git, GitHub, CI/CD basics, Vite, Postman, MongoDB Compass

Practices: Agile / Scrum, Code Reviews, System Design Fundamentals, Performance Optimization, API Integration, Production Deployments

PROFESSIONAL EXPERIENCE

InCruiter, Bengaluru, India *Jul 2025 – Jun 2026*

MERN Full Stack Developer

- Owned end-to-end delivery of multiple feature modules across a React frontend and Node.js/Express backend, working with product, design and QA.
- Designed and shipped REST APIs in Node.js and Express.js covering authentication, validation and core business logic for recruiter and candidate workflows.
- Implemented JWT-based authentication and role-based access control (RBAC) to secure recruiter and candidate flows.
- Delivered in an Agile, ticket-driven environment with clear acceptance criteria, code reviews and reliable releases.

Intervue Labs Pvt. Ltd., Bengaluru, India *Jun 2023 – Jul 2025*

MERN Full Stack Developer

- **AI Interview Platform:** Led end-to-end development of an AI-driven interview automation platform conducting hundreds of interviews per month without human intervention; architected services, designed schemas and shipped both frontend and backend.
- **Backend:** Built services in Node.js, Express.js and MongoDB, including schema modeling, optimized queries, indexing and secure handling of candidate data.
- **Frontend:** Built a scalable React.js and Next.js frontend with server-side rendering, improving initial load time and SEO.
- **Bot Automation:** Developed an interview bot that autonomously interacts with candidates, reducing recruiter effort and increasing completion rates.
- **Reliability:** Owned development, testing and production deployments, ensuring high system stability and minimal post-release issues.

Masai School (EdTech), Bengaluru, India *Apr 2022 – Feb 2023*

Instructional Associate

- Mentored 100+ aspiring developers in the MERN stack through code reviews, live sessions and one-on-one problem solving; conducted technical evaluations and helped improve curriculum effectiveness.

PROJECTS

- **DocSpace, Collaborative Document Editor (2025):** React 18, TipTap, Node.js, Express.js, MongoDB. JWT auth, role-based sharing (editor/viewer), autosave and .docx/.txt import; deployed on Vercel. Live | GitHub
- **Front Row, Real-Time Seat Booking Platform (2026):** Cinema booking app where two users can never book the same seat; React, Express, MongoDB, Upstash Redis and Socket.io with atomic Redis seat locks (5-minute holds), MongoDB transactions at checkout, live seat updates and JWT auth with RBAC. Live | GitHub
- **NextJS Music Platform (Jan–Mar 2024):** Music streaming app with Next.js server-side rendering, playback, genre browsing and search; performance-optimized and deployed on Vercel. Live | GitHub

EDUCATION & CERTIFICATIONS

B.E. in Mechanical Engineering, Matoshri College of Engineering and Research Center, Nashik *Aug 2015 – Jul 2019*

Full-Stack Web Development, Masai School, Bengaluru *Nov 2021 – May 2022*

Certifications: MERN Full Stack Development, Masai School (Apr 2023); Basics of Web Development, Masai School (Dec 2021)
